

Security Systems

Cameras · Alarms · IP Intercom · Access Control · Recording

You Are Where You Should Be.

◆ SCOPE

What We Do and Where We Do It

What We Install

- 01 Security alarm and camera systems
- 02 PTZ, laser and thermal cameras
- 03 IP intercom systems
- 04 Access control systems
- 05 Fingerprint, face recognition and card readers
- 06 Walk-through metal detectors
- 07 Under-vehicle inspection and drones
- 08 Network recorders: NVR, XVR and mobile recorders
- 09 Video conferencing
- 10 Smart home systems
- 11 Consultancy
- 12 Technical service

Where We Work

- Office buildings
- Residential complexes
- Factories
- Healthcare facilities
- System integrators
- Gardens and farmland
- Projects
- Military and high-security sites
- Schools and universities
- Shopping centres
- Villas

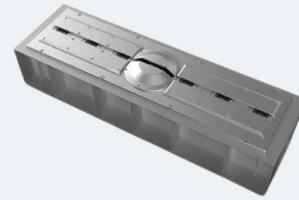

◆ PEOPLE AND VEHICLES

Entrance, Perimeter, Meetings

The person at the entrance, the vehicle in the car park, the perimeter and the remote team in the meeting room: one approach to security.

G-01 Walk-through Metal Detector

G-02 Under-vehicle Inspection

G-03 Drone

G-04 Video Conferencing

SOLUTION PARTNER

Dahua Technology is our solution partner for cameras, alarms, intercoms, recorders and access control.

◆ CAMERAS

Security Camera Systems

A wide range of IP and analogue HD cameras that suit the interior and stand up to outdoor conditions. Full Color cameras that keep colour at night, WizMind cameras running deep-learning analytics and PTZ speed domes that follow movement, plus mobile camera systems for coaches, public transport and delivery fleets.

**K-01 IP Camera****K-02 Analogue HD-CVI Camera****K-03 PTZ Camera****K-04 Mobile Camera****K-05 IMOU Wireless Camera****K-06 Thermal Camera**

◆ CAMERAS

Long Range and Special Purpose

Long-range, heat-sensitive and project-specific cameras for large sites, perimeter security and difficult light, with interchangeable lenses for the right field of view.

K-07 Laser Camera

K-08 Project Camera

K-09 Camera Lenses

◆ ALARMS

Security Alarm Systems

Wireless alarm systems for homes and businesses. With every component wireless, installation and everyday use stay simple. The system includes PIR motion detectors, door and window contacts, and smoke, flood and shock detectors. Every detector's link is supervised continuously over secure wireless, and because the system is managed from the cloud, you can control your alarm from wherever you are.

**A-01 Alarm Panel****A-02 Ready-made Kits****A-03 Detectors****A-04 Accessories**

◆ INTERCOM

IP Intercom Systems

The most widely used IP-based way to verify visitors in residential complexes. From the in-flat monitor to face recognition, card readers and PIN-coded door stations, the whole system runs on the network, with HD audio and video at all times.

I-01 Intercom LCD Monitor

I-02 Door Station

I-03 Intercom Network Switch

I-04 Security Console

◆ RECORDING

Recorders

NVR, XVR and mobile recorders from 4 to 512 channels. Hybrid models run analogue and IP cameras on a single device. Recorders with built-in PoE need no external switch, and XVR recorders carry audio over the video cable.

R-01 NVR Recorder

R-02 XVR Recorder

R-03 Mobile Recorder

R-04 Rack-mount NVR

◆ ACCESS CONTROL

Access Control Systems

Access control panels, the card readers connected to them, face recognition terminals and standalone readers. Open to integration with third-party systems, they cover every access control need; the fingerprint and biometric readers are professional products tested for stable operation.

E-01 Face Recognition Terminal

E-02 Access Control Panel

E-03 Card Reader

E-04 Fingerprint Reader

E-05 Identification Device

E-06 Modules

Everything's on Track...
